# Roman Soldier

The Romans conquered many countries with their powerful army. The Emperor used the army to protect Rome and to control the people it had conquered. Some soldiers were away from their families for long periods of time. When a soldier had served in the army for 25 years he could become a citizen of Rome.

# The Roman Colosseum

The Colosseum is celebrated as one of the most amazing architectural buildings from Roman society. You can still see it today, but it has been partly destroyed. Can you finish drawing the walls in and restore it to what it once was?
